**Energy
Performance
Contracts**

The Treasury Board administers the lease financing program for energy efficiency projects. These projects are intended to reduce energy consumption and demand or allow for the use of an alternative energy source. In some cases these projects are funded through escrow financing. A bank account is established for the agency to purchase equipment or pay for other project expenses over a certain period of time. This type of funding should be reported as installment purchase obligations. Below are example entries of how to record activity related to the escrow funding of these projects. (**Note:** In some cases the specific financial statement template (FST) line item is not provided. Use professional judgment to determine the appropriate FST line item.)

| | |
|---|--|
| Cash Installment Purchase Obligations | Record escrow funds to be used by the agency for the energy efficiency projects. |
| Operating Expenses Cash | Record payments to contractors from the escrow funds. |
| Capital Assets Operating Expenses | Reclassify expenses that meet capitalization threshold. |
| Operating Expense - Interest Expense Installment Purchase Obligations Cash | Payment on installment purchase obligation |
| Cash Nonoperating Revenue – Investment Income | Record investment earnings on escrow funds |
| Capital Assets (for capitalizable equipment) Operating Expenses (for noncapitalizable equipment) Accounts Payable | Agency identifies payable vouchers at June 30. |

Internal Service Fund Financial Statement Template

[GASBS No. 42 Requirement](#)

GASBS No. 42 provides reporting guidance for the impairment of capital assets and **all** insurance recoveries.

Overview of Requirements

Financial Statement Template Reporting:

- **Recognize Impairment Loss: Capital assets permanently impaired during fiscal year 2006:** The capital asset must be written down by the impairment loss amount. Any insurance recoveries recognized during the year for the impaired capital asset must be netted with the impairment loss. On the financial statement template, these losses should be reported as operating expenses - other, special item, or extraordinary item.
- **Restate Beginning Net Assets: Capital assets permanently impaired in prior years and not written down:** Beginning net assets should be restated for capital assets as of year-end that were permanently impaired in prior years and had not been written down by the impairment loss amount.
- **Insurance Recoveries:** For any insurance recoveries that are for prior year capital asset impairments and / or all other reasons (i.e. theft, embezzlement of cash, etc.), report these recoveries on the financial statement template as nonoperating revenue - other or an extraordinary item.

Footnote Disclosures:

- **Impairment Losses:** The footnotes must include a general description, the amount and the financial statement template line item.
- **Idle Permanently and / or Temporarily Impaired Capital Assets:** The carrying amount of temporarily and / or permanently impaired capital assets that are idle as of year-end must be disclosed.
- **All Insurance Recoveries:** The footnotes must include the amount and financial statement template line item for **all** insurance recoveries (not just for impaired capital assets).

Other Considerations:

- For any capital assets that do not meet the impairment test, the remaining useful life and salvage value may need to be reevaluated and changed on a prospective basis.

Note: Refer to **GASBS No. 42** for additional guidance.

Tab 3, Part 3.1 This part is to identify potential impairments as follows:

A) **Possible Impairment of Capital Assets:** As of June 30, 2006, did this fund have an event* or change in circumstances* that may indicate an impairment of a capital asset as described in **GASBS No. 42**? If yes, provide a description, month / year it took place, the possible impaired capital assets, and then go to B. If no, go to Part 3.3.

Note*: This must be a prominent event or circumstance that is conspicuous or known to the agency. It is expected to have been discussed by the board, management, or media. Common indicators of impairment include the following:

- Physical damage (i.e. fire, flood)
- Enactment or approval of laws / regulations or other changes in environmental factors
- Technological development or evidence of obsolescence
- Change in the manner or expected duration of a capital asset
- Construction stoppages (i.e. lack of funding)

B) **Impairment Test:** If yes to A, is the decline in service utility of the capital asset significant **and** unexpected? If yes, go to C. If no, go to 3.3.

Note: If this test indicates an impairment has not occurred, the estimated useful life and salvage value may need to be reevaluated and changed. This should be accounted for on a prospective basis.

C) **Permanent Impairment:** If yes to A and B, is the impairment considered permanent? If yes, go to D. If no, go to 3.2.

Note: Generally, an impairment should be considered permanent; however, in some cases it may be considered temporary. If it is considered temporary, the capital asset should not be written down. See **GASBS No. 42** for additional guidance.

D) Financial Statement Template Reporting & Footnote Disclosure: If yes to A, B, and C, have the impairment loss and related insurance recoveries (if applicable) been properly reported on the financial statement template (FST) in accordance with **GASBS No. 42**? If **no**, provide an explanation and go to Part 3.2. If **yes**, provide the impairment loss and insurance recovery by FST line item this activity is reported on.

Note: For **impaired capital assets that will continue to be used by the agency**, the impairment loss that should be written off should be measured by one of the following methods: restoration cost approach, service units approach, or deflated depreciation replacement cost approach. For **impaired capital assets that will no longer be used by the agency or capital assets impaired from construction stoppage**, they should be reported at the lower of carrying value or fair value.

Loss on capital assets that became permanently impaired during fiscal year 2006 must be reported on the financial statement template as operating expenses - other, extraordinary item, or special item. If the impairment loss took place in prior years and was not previously recognized, beginning net assets should be restated. Use professional judgment to determine the appropriate FST line item.

Also, Per **GASBS No. 42** paragraph 21, if insurance recoveries are in the same year as the impairment loss, the impairment loss should be reported net of the associated insurance recovery. Also, per **GASBS No. 42** paragraph 17 - footnote 6, this guidance also applies to insured impairments that result in an accounting gain.

Tab 3, Part 3.2,

Assets –

Insurance
Recoveries

Note: This includes current year insurance recoveries for capital assets impaired in prior years. It also includes all other insurance recoveries. (i.e. recoveries for embezzlement of cash, theft). Insurance recoveries should be reported on the financial statement template as nonoperating revenue – other or extraordinary item. On the conversion to the government-wide Statement of Activities, the nonoperating revenue – other should be reported as program revenues. Use professional judgment to determine the appropriate FST line item.
